

Summary of the:

## GQA LEVEL 2 CERTIFICATE IN REMOVING NON-HAZARDOUS WASTES (CONSTRUCTION)

600/9826/0

### Who is this qualification for?

This qualification is aimed at those who have responsibility for sorting, storing and removing non-hazardous wastes related to Construction work. Examples of the types of non-hazardous wastes covered by this qualification could include rubble, timber, metal, cardboard or paper, plastics, fabrics and glass. All work must be completed following Industry recognised Safe Working Practices and in accordance with relevant legislation.

This qualification is at Level 2, although some units may be at different levels and should be taken by those who are fully trained to deal with routine assignments. Candidates should require minimum supervision in undertaking the job. The qualification has been developed in a way to allow employees from companies of all sizes and specialisms equal opportunity to complete.

### What is required from candidates?

GQA qualifications are made up of a number of units that have a credit value or credits. This qualification has a group of 5 mandatory units, which have a total of 30 credits.

The units are made up of the things those working in these job roles need to know and the tasks they need to be able to do to carry out the work safely and correctly. These are called Learning Outcomes, and all must be met to achieve the unit.

Unit ref	Title	Level	Credit
<b>Mandatory units</b>			
J/503/1169 642	Conforming to Productive Working Practices in the Workplace	2	3
A/503/1170 641	Conforming to General Health, Safety and Welfare in the Workplace	1	2
F/503/1171 643	Moving, Handling and Storing Resources in the Workplace	2	5
J/618/5360 NHW1	Removing non-hazardous waste in the workplace	2	10
L/618/5361 NHW2	Installing, maintaining, and removing work area protection and safety equipment in the workplace	2	10

### Assessment Guidance

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

### Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

### Quantity of evidence:

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

### Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate's performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident books/reporting systems
- Safety records
- Training records
- Audio evidence
- Job specifications and documentation
- Witness testimonies
- Correspondence with customers
- Notes and memos
- Photo/video evidence
- Work diaries
- Timesheets
- Telephone logs
- Materials
- Completed installations
- Work schedules and records
- Equipment

**Please Note that photocopied or downloaded documents such as manufacturers' or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA qualifications unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA EQA.**
