## GQA LEVEL 2 CERTIFICATE FOR GLASS RELATED OCCUPATIONS (CONSTRUCTION)

603/1266/X

### Who is this qualification for?

This qualification is aimed those who carry out activities in the Construction Industry working with glass and/or glass related products. The qualification has a core group of 4 mandatory units that cover the generic areas including Health and Safety, transport and storage of tools, materials and equipment, checking and confirming the job specification and communication skills.

The qualification is made up of a number of pathways that are specific to the specialist occupations the qualification has been developed for, and completion of the pathway will give access to the relevant CSCS card required for site access.

GQA qualifications are available for a wide range of more mainstream of glass and construction occupations, information can be found at [www.gqaqualifications.com](http://www.gqaqualifications.com).

### What is required from candidates?

GQA qualifications are made up of a number of units that have a credit value or credits. This qualification consists of 5 mandatory units, which have a total of 17 credits and a number of pathways. Candidates must complete all 4 mandatory units and any 1 of the pathways.

The units are made up of the things those working in these job roles need to know and the tasks they need to be able to do to carry out the work safely and correctly. These are called Learning Outcomes, and all must be met to achieve the units.

#### **Assessment Guidance:**

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

#### **Types of evidence:**

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

#### **Quantity of evidence:**

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

#### **Potential sources of evidence:**

The main source of evidence for each unit will be observation of the candidate's performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident book/reporting systems
- Safety records
- Training records
- Audio records
- Job specifications and documentation
- Delivery Records
- Witness testimonies
- Photo/video evidence
- Work diaries
- Timesheets
