

Summary of the:

## GQA Level 2 NVQ in Accessing Operations and Rigging (Construction)-Fall Protection Systems

610/2304/8

### Who is this qualification for?

This qualification is aimed at individuals wishing to prove they have the level and range of knowledge and skills required to install and set up Fall Protection systems in the Construction working environment. All work must be completed following Industry recognised Safe Working Practices and in accordance with relevant legislation.

This qualification is at Level 2, although some units may be at different levels and should be taken by those who are fully trained to deal with routine assignments. Candidates should require minimum supervision in undertaking the job.

Qualifications are now required to indicate the total qualification time (TQT), this is to show the typical time it will take someone to attain the required skills and knowledge to meet the qualification criteria, this qualification has a TQT of 540 hours.

Qualifications are also required to indicate the number of hours of teaching someone would normally need to receive in order to achieve the qualification. These are referred to as Guided Learning Hours (GLH). The GLH for this qualification is 294

Unit Number	Unit no	Mandatory Units	Level	Credit
A/503/1170	641	Conforming to General Health, Safety and Welfare in the Workplace	1	2
J/503/1169	642 v1	Conforming to productive work practices in the workplace	2	3
F/503/1171	643V1	Moving, handling and storing resources in the workplace	2	5
L/650/5222	252v2	Utilising the provision of fall protection systems in the workplace	2	17
K/650/6267	262v2	Installing and setting up fall protection systems in the workplace	2	19
K/506/4648	329AV3	Preparing and operating scissor-type mobile elevating work platforms - MEWP - in the workplace	2	12

### Assessment Guidance

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

### Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

### Quantity of evidence:

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

### Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate's performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident book/reporting system
- Notes and memos
- Safety record
- Telephone/e-mail records
- Training record
- Customer and colleague feedback

- Audio evidence
- Records of equipment and materials
- Witness testimonies
- Work records
- Photographic/ video evidence

**Please Note that photocopied or downloaded documents such as manufacturers' or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA qualifications unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA EQA.**
