

**Summary of the:
SVQ Glass Processing at SCQF Level 6**

GT4Y 46

Who is this qualification for?

This qualification is part of an overall SCQF Level 6 national occupational standard. This qualification is aimed at those who undertake work to produce products from glass and related materials in the glass processing sector. This covers the handling of products throughout the process. Units in this qualification cover cutting, shaping, assembling, and finishing the products, including decoration. It is not expected that glass processors all do the same activities: the qualification is structured to endure that there is a high degree of flexibility in the qualification, although there are common units in the mandatory section of the qualification. The standard covers the most important aspects of the job. This qualification is at SCQF Level 6, and should be taken by those who are experienced glass processors. Candidates will often take a technical supervisory role, particularly in relation to less experienced workers. A further qualification for Glass Processing at SCQF Level 5 is also available.
