

Summary of the:

GQA Level 2 NVQ Certificate in Interior Systems (Construction)

601/0396/6

Who is this qualification for?

This qualification is aimed at those who are involved with interior systems (ceiling fixing, dry lining finishing, protection barrier installation and installing plasterboard linings) in Construction. Although it is not expected that all workers will complete the same tasks, there are 3 mandatory units common to all pathways. The group of optional units will allow employees with specific skills and from companies of all sizes equal opportunity to complete.

All work must be completed following Industry recognised Safe Working Practices and in accordance with relevant legislations.

This qualification is at Level 2, although some units may be at different levels and should be taken by those who are fully trained to deal with a range of tasks and situations. Candidates should require minimum supervision in undertaking the job.

What is required from candidates?

QCF qualifications are made up of a number of units that have a credit value or credits. This qualification consists of 3 mandatory units, which have a total of 10 credits and 4 pathways. Candidates must complete all 3 mandatory units and any 1 of the pathways. This gives the qualification a minimum credit value of 31 credits.

The units are made up of the things those working in these job roles need to know and the tasks they need to be able to do to carry out the work safely and correctly. These are called Learning Outcomes, and all must be met to achieve the units.

Mandatory Units (All units must be taken)

<i>Unit Ref</i>	<i>Title</i>	<i>Level</i>	<i>Credit</i>
A/503/1170	Conforming to General Health, Safety and Welfare in the Workplace	1	2
J/503/1169	Conforming to Productive Working Practices in the Workplace	2	3
F/503/1171	Moving, Handling and Storing Resources in the Workplace	2	5

Pathway 1 – Ceiling Fixing

<i>Unit Ref</i>	<i>Title</i>	<i>Level</i>	<i>Credit</i>
K/615/6143	Installing Suspended Ceiling Systems in the Workplace	2	24

Pathway 2 – Dry Lining Finishing

<i>Unit Ref</i>	<i>Title</i>	<i>Level</i>	<i>Credit</i>
M/615/6144	Finishing Dry Lining Walls and Ceilings in the Workplace	2	25

Pathway 3 – Cavity Barrier Installation

<i>Unit Ref</i>	<i>Title</i>	<i>Level</i>	<i>Credit</i>
T/615/6145	Installing cavity barriers to floors and ceilings in the workplace	2	22

Pathway 4– Dry Lining Boarder

<i>Unit Ref</i>	<i>Title</i>	<i>Level</i>	<i>Credit</i>
D/615/5877	Installing Plasterboard Linings in the Workplace	2	21

Achievement of the required credit indicated above will mean the qualification has been completed and GQA will provide the Certificate with the qualification title. Where a candidate has completed additional credits the Certificate will list these as “additional credits”. In cases where the candidate has not completed the requirements of the full qualification and will not go on to do so, a Certificate of credit can be issued for the credits achieved.

Assessment guidance

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace in a way that shows that candidates can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time. Evidence of knowledge can be demonstrated through a range of methods including responses to oral and/or written questions, assignments, or professional discussions.

Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate’s performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident book/reporting systems
- Safety records
- Training records
- Audio evidence
- Job specifications and documentation
- Completed installations
- Work schedules and records
- Equipment
- Witness testimonies
- Photo/video evidence
- Work diaries
- Timesheets
- Materials

Please Note that photocopied or downloaded documents such as manufacturers’ or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA qualifications unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA External Verifier.
