

Summary of the:

GQA LEVEL 2 NVQ CERTIFICATE IN FITTED INTERIORS (CONSTRUCTION) (610/0014/7)

Who is this qualification for?

This is a work-based learning qualification for those involved in the installation of Fitted Interiors. The aim of the qualification is to ensure individuals have the skills and knowledge required to carry out the types of work listed below in accordance with specification requirements, safe working practices and within the required timescales. More specifically the qualification will require individuals to prepare and install kitchen and/or bathroom and/or bedroom standard or specialist items to contractor's working instructions, relating to the following as appropriate to the installation:

- floor units and wall units
- fixing work surfaces
- forming cut outs for appliances in work surfaces
- encasing services and heat
- producing appliances
- bonding plastic laminates
- scribing, mitring and fixing mouldings, internal and external corners
- peninsular and island unit arrangements.

This qualification is made up of 4 mandatory units and an additional, entirely optional unit. The minimum credit value of this qualification is 35 credits.

Qualifications are now required to indicate the total qualification time (TQT), this is to show the typical time it will take someone to attain the required skills and knowledge to meet the qualification criteria, this qualification has a TQT of 350 hours.

Qualifications are also required to indicate the number of hours of teaching someone would normally need to gain the skills and knowledge to achieve the qualification. These are referred to as Guided Learning Hours (GLH). The GLH for this qualification is 174.

additional credits the Diploma will list these as “additional credits”, in cases where the candidate has not completed the full qualification and will not go on to do so, a Certificate of credit can be issued for the credits achieved.

Assessment guidance

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

Quantity of evidence:

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate’s performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident books/reporting systems
- Notes and memos
- Safety records
- Photographic/video evidence
- Training records/reviews
- Use of equipment inc PPE
- Job bags/works instruction tickets
- Job samples
- Customer feedback (internal or external)
- Witness testimonies
- Production records
- Emergency procedures,risk assessments and accident reporting systems

Examples of evidence could include:

- Assessor observation reports
- Quality/production records
- Product output (good and fault samples)
- Witness testimonies
- Job bags/work instruction tickets/production records
- Examples of maintenance and/or records
- Examples of component replacement and/or records

Please Note that photocopied or downloaded documents such as manufacturers' or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA EQA.
