

Summary of the:

**GQA Level 2 NVQ Diploma in Associated Industrial Services Occupations (Construction)
Passive Fire Protection V2 (610/0116/X)**

Who is this qualification for?

This qualification is aimed at individuals wishing to prove they have the level and range of knowledge and skills required to carry out the installation of passive fire protection solutions in the Construction industry.

This qualification is at Level 2, although some units may be at different levels and should be taken by those who are fully trained to deal with a range of tasks and situations.

What is required from candidates?

Although it is not expected that all workers will complete the same tasks, there are 3 mandatory units with a total credit value of 10 credits and then a group of optional units that will allow maximum opportunity for those involved in this type of work to complete the qualification regardless of the size of the organisation and specialisms within Passive Fire Protection. Candidates must complete all 3 mandatory units and also achieve a minimum of 102 credits from the optional group which will involve completing at least 2 optional units. The qualification credit value is 112 credits.

Qualifications are now required to indicate the total qualification time (TQT), this is to show the typical time it will take someone to attain the required skills and knowledge to meet the qualification criteria, this qualification has a TQT of 1120 hours.

Qualifications are also required to indicate the number of hours of teaching someone would normally need to receive in order to achieve the qualification. These are referred to as Guided Learning Hours (GLH). The GLH for this qualification is 404

Mandatory Units			
A/503/1170	Conforming to General Health, Safety and Welfare in the Workplace.	1	2
641			
F/503/1171	Moving, Handling and Storing Resources in the Workplace	2	5
643			
J/503/1169	Conforming to Productive Working Practices in the Workplace	2	3
642			
Optional units-a minimum of 2 units (102 credits) must be achieved			
H/650/0413	Installing dry cladding to protect structural steel in the workplace	2	51
350v3			
J/650/0414	Applying thin film reactive coatings in the workplace	2	67
351v3			
K/650/0415	Installing fire resisting ductwork systems in the workplace	3	58
352v3			
L/650/0416	Installing fire stopping and penetration seals in the workplace	2	69
353v4			

R/650/0418	Installing flexible (non-mechanical) cavity barriers in the workplace	2	51
354v3			
T/650/0419	Erecting fire resisting walls and wall linings in the workplace	2	61
355v3			
D/650/0420	Erecting fire resisting ceiling systems in the workplace	3	61
356v3			
F/650/0421	Applying non-reactive spray coatings in the workplace	2	67
357v3			
H/650/0422	Installing fire resisting timber door assemblies and door-sets in the workplace	2	69
358v3			

Assessment Guidance:

Evidence should show that you can complete all of the learning outcomes for each unit being taken.

Types of evidence:

Evidence of performance and knowledge is required. Evidence of performance should be demonstrated by activities and outcomes, and should be generated in the workplace only, unless indicated under potential sources of evidence (see below). Evidence of knowledge can be demonstrated through performance or by responding to questions.

Quantity of evidence:

Evidence should show that you can meet the requirements of the units in a way that demonstrates that the standards can be achieved consistently over an appropriate period of time.

Potential sources of evidence:

The main source of evidence for each unit will be observation of the candidate's performance and knowledge demonstrated during the completion of the unit. This can be supplemented by the following types of physical or documentary evidence:

- Accident book/reporting systems
- Safety records
- Training records
- Audio records
- Job specifications and documentation
- Delivery Records
- Witness testimonies
- Correspondence with customers
- Notes and memos
- Photo/video evidence
- Work diaries
- Timesheets
- Telephone Logs
- Meeting records
- Records of toolbox talks
- Equipment
- Prepared materials and sites
- Completed work

Please Note that photocopied or downloaded documents such as manufacturers' or industry guidance, H&S policies, Risk Assessments etc, are not normally acceptable evidence for GQA qualifications unless accompanied by a record of a professional discussion or Assessor statement confirming candidate knowledge of the subject. If you are in any doubt about the validity of evidence, please contact your GQA EQA.
