

Summary of the:

GQA Level 3 Award in Understanding the principles of 4-wheel alignment (610/2476/4)

Who is this qualification for?

This qualification is aimed at individuals wishing to prove they have a good level of understanding of the principles and processes of 4-wheel alignment of road-going vehicles, but have neither the need nor opportunity to carry out the process themselves.

This will include the information, data, equipment, competencies, and working area required to ensure 4-wheel alignment can be carried out safely and in accordance with the manufacturer's specifications

This qualification is at Level 3, and should be taken by those who are fully trained to deal with a range of tasks and situations and carry out the work.

What is required from candidates?

GQA qualifications are made up of a number of units that have a credit value or credits. This qualification has one unit with a Credit Value of 4 credits.

The unit is made up of the key aspects of 4-wheel alignment needed to know to be able to carry out the work safely and correctly. These are called Learning Outcomes, and all must be met to achieve the unit.

Unit no	Mandatory units	Level	Credit
FWA2	Understanding the principles of 4-wheel alignment	3	2

Assessment Guidance

This is a knowledge-only qualification. Evidence of knowledge can be demonstrated through a combination of written responses to questions, oral Q&A sessions, or guided discussions. Verbal evidence should be audio/video recorded and be fully auditable.

Potential Sources of supporting evidence could include:

- Reports
- Witness Testimonies
- Training Records
- Completed work records/job logs
- Audio evidence
- Video/photographic evidence
